Report of Independent Certified Public Accountants

Board of Trustees
Lafayette College

We have audited the accompanying statements of financial position of Lafayette College (the College) as of June 30, 2012 and 2011 and the related statements of activities and cash flows for the years then ended. These financial statements are the responsibility of the College's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Lafayette College as of June 30, 2012 and 2011 and the changes in its net assets and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

NOTES TO FINANCIAL STATEMENTS

June 30, 2012 and 2011

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Presentation

Lafayette College (the College), located in Easton, Pennsylvania, is an independent coeducational institution offering undergraduate bachelor of arts, science and engineering degrees. The College had an average enrollment of 2,399 and 2,328 full-time students, of which approximately 87% lived on campus for the years ended June 30, 2012 and 2011, respectively.

The financial statements of the College have been prepared on the accrual basis of accounting.

Resources are reported for accounting purposes in separate classes of net assets based on the existence or absence of donor-imposed restrictions. In the accompanying financial statements, net assets that have similar characteristics have been combined into similar categories as follows:

- Unrestricted - Net assets that are not subject to donor-imposed stipulations. Unrestricted net assets may be designated for specific purposes by action of the Board of Trustees or may otherwise be limited by contractual agreements with outside parties.
- Temporarily restricted - Net assets whose use by the College is subject to donor-imposed stipulations that can be fulfilled by actions of the College pursuant to those stipulations or that expire by the passage of time.
- Permanently restricted - Net assets subject to donor-imposed stipulations that they be maintained permanently by the College. Generally, the donors of these assets permit the College to use all or part of the investment return on these assets. Such assets primarily include the College's permanent endowment funds.

Expenses are generally reported as decreases in unrestricted net assets. Expirations of donor-imposed stipulations that simultaneously increase one class of net assets and decrease another are reported as reclassifications between the applicable classes of net assets.

Contributions and investment return with donor-imposed restrictions that are met in the same year as received are recorded as unrestricted revenues. Other contributions and investment return are classified as temporarily restricted if the purpose of the contribution has yet to be specified by the donor.

Contributions restricted for the acquisition of land, buildings and equipment are reported as temporarily restricted revenues. These contributions are reclassified to unrestricted net assets upon acquisition of the assets.

2. Cash and Cash Equivalents

Cash and cash equivalents include short-term, highly liquid investments with a maturity of three months or less at the time of purchase.

(Continued)

NOTES TO FINANCIAL STATEMENTS - CONTINUED

June 30, 2012 and 2011

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

3. Accounts and Notes Receivable

Accounts and notes receivable are reported net of allowance for doubtful accounts. The allowance for doubtful accounts was \$984,000 and \$922,000 at June 30, 2012 and 2011, respectively.

4. Contributions Receivable and Bequests in Probate

At June 30, 2012, the estimated present value of contributions receivable and bequests in probate are shown below. The discount rates range from 1.25% to 6.00%.

	2012			Total
	<u>Less than one year</u>	<u>One to five years</u>	<u>Six to ten years</u>	
Pledges of gifts	\$ 3,298,021	\$ 6,278,710	\$ 112,239	\$ 9,688,970
Bequests in probate	<u>700,700</u>	<u>-</u>	<u>-</u>	<u>700,700</u>
	<u>\$ 3,998,721</u>	<u>\$ 6,278,710</u>	<u>\$ 112,239</u>	<u>\$ 10,389,670</u>

Contributions receivable and bequests in probate are reported net of provisions for doubtful accounts and discounts. The provision for doubtful accounts was \$622,000 and \$1,162,000 and discounts were \$399,000 and \$463,600 at June 30, 2012 and 2011, respectively. The provision is intended to provide for contributions receivable and bequests in probate that may not be collected. At June 30, 2012, the College had also received conditional promises to give of approximately \$7,104,000. These conditional promises to give are not recognized until they become unconditional, that is, when the condition on which they depend is substantially met.

5. Student Loans Receivable

Student loans receivable are reported net of allowance for doubtful loans. The allowance for doubtful loans was \$781,000 and \$687,000 at June 30, 2012 and 2011, respectively. The allowance is intended to provide for loans, both in repayment status and not yet in repayment status (borrowers still in school or in the grace period following graduation), that may not be collected.

A reasonable estimate of fair value of student loans receivable under government loan programs is not made, because the notes are not transferable to outside parties and can only be assigned to the U.S. Government or its designees. Also see Note J.

6. Allowances for Doubtful Accounts

The allowances for doubtful accounts are provided based upon management's judgment, including such factors as prior collection history and type of receivable. The College writes-off receivables when they become uncollectible, and payments subsequently received on such receivables are credited to the provision for doubtful accounts.

NOTES TO FINANCIAL STATEMENTS - CONTINUED

June 30, 2012 and 2011

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

7. Inventories

Inventories primarily consist of books and other supplies and are stated at the lower of cost (first-in, first-out method) or market.

8. Investments

The College records investments at fair value. The average cost of investment securities is used to determine the basis for computing realized and unrealized gains and losses. Debt securities, equity securities and certain mutual funds are valued at quoted market prices. The College also invests in a variety of alternative investments. Such investments are accounted for at estimated fair value and are disclosed in Note C.

9. Split-Interest Agreements

The College has entered into various types of split-interest agreements, including charitable gift annuities, charitable remainder trusts and pooled life income funds.

Revenue is recognized pursuant to these split-interest agreements based on the fair value of the assets contributed less a liability for the present value of the payments expected to be made to the beneficiaries. Each year, the College re-evaluates the expected future payments to beneficiaries based on changes in life expectancy and other actuarial assumptions and discloses the changes in value of the agreements as a separate line item on the statements of activities. At June 30, 2012 and 2011, the liability associated with split-interest agreements was \$20,630,775 and \$20,508,939, respectively, and is recorded as annuities payable in the statements of financial position.

At June 30, 2012 and 2011, the fair value of such assets for split-interest agreements was \$41,603,440 and \$42,060,549, respectively, and is recorded, as applicable, in cash and cash equivalents and long-term investments in the statements of financial position. At June 30, 2012 and 2011, the cost was \$39,379,249 and \$38,410,291, respectively.

10. Land, Buildings and Equipment

Land, buildings and equipment are recorded at cost, or if donated, at fair market value at the date of donation. Depreciation is computed on a straight-line basis over the estimated useful lives of the related assets as follows:

	<u>Years</u>
Buildings	40
Systems and improvements	25
Equipment, library books and vehicles	5

NOTES TO FINANCIAL STATEMENTS - CONTINUED

June 30, 2012 and 2011

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Works of art, historical treasures and similar assets have been recognized at their estimated fair value based upon appraisals or similar valuations at the date of acquisition or donation. Works of art, historical treasures and similar assets are not depreciated. The aggregate carrying value of such assets at June 30, 2012 and 2011 is \$2,794,034 and \$2,455,034, respectively.

Capitalized interest has been recognized as the total interest cost of the borrowings less any interest earned on the short-term investment of the proceeds of the borrowings, from the date of borrowing until the acquired assets are ready for their intended use. Net capitalized interest was \$-0- in each year for the years ended June 30, 2012 and 2011.

11. Deposits with Bond and Other Trustees

Deposits with bond and other trustees represent funds held by designated bond trustees for future application by the College to approved capital projects at June 30, 2012 and 2011 in the amounts of \$1,939,551 and \$4,730,643, respectively. This category also includes the collateral obligation to the counterparty under the College's various interest rate hedge/swap agreements as described in Note E10. Such obligation at June 30, 2012 and 2011 was \$10,200,719 and \$1,643,035, respectively, and reduces cash and cash equivalents on the statements of financial position.

12. Deposits and Deferred Revenues

Deposits primarily include amounts held for various student and alumni organizations. Deferred revenues relate to tuition and matriculation deposits and other payments for the upcoming fall semester that are received prior to fiscal year-end.

13. Federal Student Loans Refundable

Funds provided by the United States Government under the Federal Perkins Loan program are loaned to qualified students and may be reloaned after collection. These funds are ultimately refundable to the government and are reported as a long-term liability. Also see Note J.

14. Interest Rate Hedge/Swap Agreements

Interest rate hedge/swap agreements are recognized as either other long-term assets or other long-term liabilities in accordance with the netting provisions in the counterparty agreement and are measured at fair value. Gains or losses resulting from changes in the fair values of the interest rate hedge/swap agreements have historically been reported by the College as nonoperating gains or losses. The College's management prepares its budgets assuming the net payments to the counterparty similar to the cost of the net debt if it were a fixed rate transaction at the swap rate. Accordingly, the College has elected to report the net payments to/net receipts from the counterparty under these agreements as operating interest expense in the categories of Instruction, Student Services and Auxiliary Services. Also see Note E10.
