**Students should not be working more than 20 hours per week between all campus position they hold.**

**All students must submit their online time sheet on or before the online timesheet due date (second column). It is recommended that you submit by the end of the pay periods rather than waiting until the due date on the second column. **No exceptions will be****

**If you do not submit your hours, I may not be able to submit them on your behalf. Some approvers may want them before the date in the second column. If I do submit them, they will not approve them since you missed their deadline. You will not be paid on the check date. If you have a "Returned" timesheet and you do not submit that, it will remain as "Returned" and you will not be paid.**

**Approvers:** If you return any student's time sheet, they must re-submit the timesheet before your deadline (third column date) so that you can approve it. If they don't re-submit, you will not be able to approve and they will miss the pay period.
